HANDCUFFS FAIL  
TO HALT ESCAPE  
OF NEVERESKI

Alleged "Yegg" Makes Get-  
away From New Carlisle  
Officer.

## FIND QUANTITY OF LOOT

Discover Property Taken in  
Wholesale Thefts and  
"Booze" at Home.

After County Sheriff Lou Duck's deputies had placed handcuffs upon the wrists of John Nevereski, alias John Lancaster, of R. R. No. 4, charging him with wholesale thefts, perpetrated recently in the vicinity of New Carlisle, the alleged "yegg," taking advantage of the fact that he was left in the care of one of his complaints, jumped through a window and easily made his escape despite the frantic efforts of the officers to recapture him. He took with him the "shining bracelets" given him by the deputies.

Nevereski had been suspected for some time of having had a part in a series of hold ups here and Sunday evening at 7 o'clock county authorities, armed with a search warrant, made a thorough inspection of his home during his absence. In addition to finding there a large amount of stolen meats and clothing, a quantity of "moonshine" whiskey was also discovered. Upon his return home, Nevereski was "handcuffed" and placed in charge of one of the deputies of his recent alleged robbery activities, while the deputies completed the inspection of the property. They were in an outer shed when he jumped through the window and a few stray shots fired at the fleeing man went wild, permitting him to make a complete get-away.

Sheriff Duck was immediately notified at South Bend and the word was broadcasted to surrounding towns to be on the lookout for the "man with the shining bracelets." Prohibition Enforcement Agent Mathers and Patrolman Szymanski were rushed to the scene to continue the search while the deputies were scouring the woods for their quarry.

**Find Quantity of Booze.**  
The still, which the deputies reported having found in a dugout under a hog pen, just as the alarm was given that Nevereski had escaped, had been removed from the premises. A thorough search failed to reveal the hide place of the still, but 500 gallons of mash and eight gallons of "mule" were found.

In searching through the house, the deputies found 400 pounds of bacon, 100 pounds of sugar and two loaves, which were placed in a room where the C. M. Hauser Packing Co., of New Carlisle on the night of Nov. 25.

Nine sweaters and two men's shirts found, were identified by New York Central detectives as a portion of the shipment stolen from the express depot on the night of Nov. 27. Four barrels belonging to the Fred Hoffman Cooperage Co., of New Carlisle, were also recovered, as were a number of boxes of shot shells.

When captured, Nevereski will be prosecuted by the railroad officials for the express station robbery, and he will also face a charge of illicit manufacture of liquor. Up to a late hour last night, Nevereski had not been captured.

CHARGE ERIE ROAD  
VIOLATES RULINGS

NEW YORK, Dec. 11.—Charles that the Erie railroad had sought to evade rulings of the United States railroad labor board by "farming out" work to outside contractors, were made in the form of resolutions adopted today by the New York district council of the maritime union. The resolutions were presented to the board in Chicago at a hearing on Dec. 13, by Jerry A. Hunt, general chairman of the United Brotherhood of Carpenters and Joiners of America, Erie system. The union charged that the Erie, after making effective the wage scale approved by the labor board, July 1, made still further reductions through the contract system. It declared also, that the wages of many married employees of the Erie had been reduced to \$2.20 a week through a four-day-a-week working plan at wages of less than \$2 a day.

Schoolboy Bandit  
Slain by Victims  
In Holdup Attack

FORT WAYNE, Dec. 11.—Officer Lehtinen, 19 years old, a high school student of Bluffton, Ind., was shot and killed early Sunday when he attempted to hold up Charles Doly and his 15-year-old son Eugene, at Columbus Grove, Ohio. Doly, billed as proprietor, accompanied by his son was on his way home from his place of business, when Lehtinen is said to have covered the two with a revolver. The son is said to have struck the gun from Lehtinen's hand and knocked the officer to the ground. Lehtinen fell the elder Doly is said to have fired four shots into his body.

WARDEN STABBED  
MANY TIMES IN  
BIG PRISON RIOT

Alarm Given by Life Prisoner  
Brings Help to Wounded  
Jailers.

MARQUETTE, Mich., Dec. 11.—A riot among prisoners at the branch of the Michigan state reformatory here during a moving picture exhibition Sunday morning was quelled after Warden T. B. Catlin had received nine knife wounds. Deputy Warden Menhennit had been badly beaten and the latter's son, Arthur Menhennit who was visiting his father at the prison was stabbed in the lungs. Arthur Menhennit is in a local hospital and is said to be in a serious condition.

**Prison Chapel Darkened.**  
A large number of the prisoners had been taken to the chapel to witness the entertainment. After the chapel had been darkened to permit showing of the pictures a number of the prisoners, led by prison officials to have been led by "Gypsy Bob" Harper, Jasper Perry and Charles "Wolf" all of Detroit, sprang upon Catlin. As a prison rule prohibits carrying of fire arms within the institution, the officials aided by a large number of loyal prisoners, fought the insurgents with their fists, feet or with canes they carried.

Carving knives, believed to have been obtained by some of the prisoners from the reformatory kitchen were brought into play and Catlin fell before the knife thrusts. Arthur Menhennit was down soon after as his father was receiving a beating at the hands of the inmates.

**Liter Calls Help.**  
Sam Ford, serving a life sentence, rushed from the chapel as the disturbance started and summoned Charles Muck, a guard, from the outer wall. Muck ran to the chapel, leveled his rifle at the prisoners and held them at bay while other guards were summoned. The prisoners were hurried to their cells. The leaders in the riot are in the prison bull pen tonight awaiting decision by Gov. Alex. J. Grosbeck as to their punishment. The trouble is believed by prison officials to have had its inception in friction between Warden Catlin and Harper. The latter was sentenced to Jackson prison from Detroit for highway robbery some time ago. While at Jackson he killed a fellow prisoner during a knife battle and was transferred to Marquette for punishment. Three months ago he escaped from the prison but was recaptured at Negaunee.

REPORT PERUVIAN  
REBELS VICTORY

Strict Censorship Prevents  
Confirmation of Latest  
Outbreak.

By Associated Press.  
BUENOS AIRES, Dec. 11.—A report that revolutionary troops operating in eastern Peru defeated the government forces in battle last Monday is contained in a wireless message published by the newspaper La Nacion.

It is believed that any definite news of the reported government victory will come by way of Brazil as the Peruvian censorship is of the strictest character.

## CENSORSHIP STRICT

There have been no previous reports of a recent outbreak in the eastern part of Peru. Since early in October no news dispatches of consequence have been allowed to pass by the Peruvian censors, and the internal situation is conjectured.

The censorship was imposed following a series of troubles in the northern department of Loreto, where a revolt broke out in the city of Iquitos on Aug. 13. The trouble was due, dispatches said, to failure of the government to pay the soldiers for six months. The last report on this outbreak was on Oct. 6, when it was stated that the civil authorities were being restored to their positions and that the revolutionary leaders were in disagreement.

Another outbreak was reported in the coast province, Tumbes, department of Piura, in a dispatch on Oct. 19 from Santiago, Chile, to the Buenos Aires newspaper La Razon.

ARMS DELEGATES  
PLAN TO FINISH  
BY END OF YEAR

Far East and Naval Reduction  
Program Chief Vital Mat-  
ters to Settle.

## GOES INTO FIFTH WEEK

Republican and Democratic  
Senate Leaders Will Sup-  
port Pacific Pact.

By Associated Press.  
WASHINGTON, Dec. 11.—With the four power treaty in final form and an agreement on naval ratio regarded as practically assured, the arms conference goes into its fifth week with its principals confident they can wind up all their major duties here by the end of the year.

The problem of the far east and details of the naval reduction program including the question of Pacific island fortifications and naval bases now become the subjects of primary consideration. The far eastern discussions are to be pressed forward at daily meetings of the committee of the whole at the same time that the naval situation is clearing up through continued communication with the foreign capitals, and while the separate negotiations over Shantung and Yap are verging toward decision.

## Japan Ready To Accept

Although there are indications that Japan is about ready to accept the American 5-5-3 naval ratio, it is not considered unlikely that she may refrain from committing herself definitely until there is a clearer understanding about future fortifications on the Pacific islands. There has been a general indication that all the powers are willing to assent to an arrangement by which all present defenses in Pacific waters would be retained and none added in the future, but the question is yet to be made the subject of formal exchanges.

Further instructions from Tokyo were received today by the Japanese delegates. The nature of the message was not revealed, but there were evidences that the Japanese were preparing to canvass the situation relative to Pacific bases before going further with the naval ratio discussions. The two subjects have been long regarded by Japan as inseparably linked, and her desire to dispose of both at one time is not regarded as a serious barrier to a ratification.

The negotiations relative to China, although proceeding separately, also are receiving the careful attention of the Japanese while the naval question is in abeyance and there are some hints that they would prefer to see a decision in that quarter also before they make their acceptance of the "5-5-3" final and binding.

**Forecast "Understanding."**  
It is the general expectation that the result of the far eastern discussions will be a united declaration of

KOREANS PRESENT  
PLEA FOR HEARING

Ignoring of Problem Will  
Leave an Asiatic Alsace-  
Lorraine.

By Associated Press.  
WASHINGTON, Dec. 11.—The Korean commission announced Sunday night it was filing with the delegates a formal brief in support of its claim of the right to present Korea's case before the conference. With this brief went the warning by the commission that adjournment of the conference without settlement of the Korean problem would be to "leave an Asiatic Alsace-Lorraine to plague its conscience, threaten its peace and disturb its relations of justice and international relations."

Korea's right to be heard, the statement declared, rests on "solemn sanction of treaty obligation." It added that Korea is "both the expeller and finished sample of Japanese imperialism." It inquired whether there could be peace in the orient if a country of 20,000,000 people were left to smart with the injustice of treaties unkept.

"Can you say to Korea that these pledges are meaningless, that she can be annexed by her own ally whom she assisted to win a great war?" The statement continued.

"If that is your position can you expect to have world peace result from such a conference? Will any agreement that you make have any more binding force or effect than the agreements that you have already made, and will the world at large, or even yourselves, have any respect for them?"

BURGLARS GET HAUL  
AT INDIANAPOLIS

INDIANAPOLIS, Dec. 11.—Burglars early Sunday broke into the Hoopes-Strack Auto Co., and stole a small safe containing \$2,000 in checks, two \$100 gold bonds, and about \$5.50 in change. They also took tires and tools to the amount of about \$300.

The loot was removed in an automobile stolen from another auto sales room nearby.

The burglary was discovered Sunday morning by William Strack, manager of the company. The empty safe and the auto were found a few hours later near Fall Creek at the edge of town.

MATTRESS COMPANY  
BUILDING DAMAGED  
BY SUNDAY BLAZE

\$25,000 Loss Caused by Early  
Morning Fire—Believe  
Boiler Responsible.

Feeding itself on cotton and excelsior used in the manufacture of mattresses, fire early Sunday morning swept the Sanitary Felt and Mattress company building, 319-321 Hydraulic av., causing a loss estimated at \$25,000.

Mystery surrounds the origin of the blaze, which was discovered by a pedestrian at 2 o'clock Sunday morning. When firemen reached the scene, the interior of the building was a mass of flames and seven companies battled for hours before getting it under control. It was 6 o'clock in the morning when the fire had been completely extinguished.

**Blame Faulty Boiler.**  
The only theory for the start of the conflagration advanced by the city fire department is that the boiler of the building is a faulty boiler.

"It started either in the basement or on the first floor," declared Miller last night. "The first floor is used for storage purposes."

Damage to the building will amount to between \$10,000 and \$15,000. It is covered by insurance. Mattress company officials estimate their loss at \$10,000, and the Lamb Shirt company occupying the third floor, is also hard hit.

Smoke from the chimney were responsible for another blaze which burned the roof from the house at S. Taylor and W. Wayne sts., at 1 o'clock yesterday morning. The property belongs to the Shrilling estate and Mrs. Josephine M. Conquard is the tenant. The loss is estimated at \$150.

INVESTIGATE CLOSE  
OF GUAM-YAP CABLE

SAN FRANCISCO, Dec. 11.—Disclosure that the Guam-Yap cable had been sealed at some time within the past three days by some persons unknown was made in a statement issued Sunday night by the Postal Telegraph and Cable Co., owners of the line.

The statement said investigation was being made through the company's New York office, but that only three agencies—the navy department, the Japanese government or the cable company—could have sealed the cable. It was not known, the statement said, at exactly what point the cable was sealed.

Jerusalem Taken  
By Army Cook in  
Search of Eggs

NEW YORK, Dec. 11.—It was not Gen. Allenby but a British army cook named Vivian Gilbert who wrested Jerusalem from the Turks in 1917—or such at least was the "inside story" related tonight by Maj. Vivian Gilbert of London in an address at a Brooklyn Y. M. C. A.

Maj. Gilbert, who was a member of the expedition Allenby's expedition, later to become a subject of much mortification to the Moslem inhabitants of the Holy City, came about as follows:

"Cook" gave him keys.  
Jerusalem was evacuated by the Turks on the night of Dec. 8, 1917. We discovered this the next morning when a stupid officer, who had been sent to a small village in our possession for eggs, missed his way. He had gone in the opposite direction and returned to report, in great perplexity, that 'a cove, surrounded by a crowd' had given him some keys and made him a speech when he asked for eggs. It turned out the 'cove' was the mayor of Jerusalem, who desired the keys to the city, and the English forces to be descending on the city, had 'surrendered' by handing over the keys of the city to the first man he saw in British uniform.

**City Thrice Taken.**  
As it turned out, he continued, the ceremony proved to be good practice for the mayor as this dignitary was forced to repeat the process three times thereafter.

Big Gen. Watson was informed, he said and going into Jerusalem formally accepted the keys of the city but the division general decided that he was the fit person to capture Jerusalem and ordered Watson to return the keys.

"This was done and some hours later the general accompanied by a gorgeous retinue accepted the keys from the mayor for the third time."

"But when the division general sent a telegram to Gen. Allenby the latter replied that he would take the city and he did so two days later."

"The poor mayor died two weeks afterward—it was said that he contracted pneumonia from so much running around bareheaded."

BOTH SIDES MARK  
TIME IN STRIKE

Union Officials May Have  
Conference With Pres't  
Harding.

CHICAGO, Dec. 11.—Both the unions and the packers marked time today in the strike of packing plant employees and the stock yards district was more quiet than it has been any time since the walkout started a week ago.

Dennis Lane, secretary of the meat cutters, and Cornelius Hayes, international president, both left Chicago Sunday, the former going to Washington and the latter to New York. It is reported that Mr. Hayes will join Sec'y Lane in Washington and that a conference with Pres't Harding may be held as a step toward asking government intervention. Five mass meetings of strikers were held today and leaders predicted victory. Packers assert however, that the coming week will see more men returning to work and that operations would be more nearly normal than during the last week.

## MANY HURT IN CRASH

INDIANAPOLIS, Dec. 11.—Between 20 and 25 persons were hurt, not seriously, when an engine of the Indianapolis Belt railway struck a street car at the W. Washington st. crossing here Sunday night. The car which was partly filled with passengers, was turned completely over.

BOLSHEVIST PERIL  
IN EUROPE IS GONE,  
HOOVER BELIEVES

Improved Standards of Living  
and Russia's Lesson  
Ends Danger.

WASHINGTON, Dec. 11.—The economic recovery of Europe, while necessarily slow and difficult, is making substantial progress, Sec'y Hoover declared in a review of international trade conditions made public Sunday night. The situation "contains great dangers," he said, but it is "not at all gloomy as some statements would make it appear." A survey of European conditions, he said, will "show that the danger of bolshevism is past," partly through improved standards of life and partly "through the salutary lesson to Russia."

**May Have Plebiscite.**  
Present indications favor a narrow majority for the treaty and probably reference to a plebiscite of the Irish people. In the English parliament ratification is considered quite safe. It is admitted that Andrew Bonar Law, even if not approving of the clauses of the treaty, has decided to accept it in principle or at least not to offer substantial opposition, his view being that Ulster is sufficiently protected by the privilege of contracting out. The small body of "die hards" in the house of commons, numbering about 50, had counted on Mr. Bonar Law, and their opposition to the treaty is likely to evaporate measurably.

**Premier Prepares Address.**  
Premier Lloyd-George has been utilizing the week-end at Chequers court in preparation of his speech for delivery Wednesday in the house of commons, and is expected to speak an hour and a half and to make a powerful plea for the treaty. It is believed that the debate will be concluded more speedily than was at first thought possible and that the treaty may be voted on by the session closed by the end of the week. The necessary legislation to give effect to the settlement will be introduced at the new session in February.

**Find Reparations Basis.**  
"As the United States does not participate, either in its control or its receipt," he added, "we have no voice or right to interfere. It is earnestly to be hoped that the present negotiations may succeed in finding a sound basis that will secure permanent economic and political stability to Germany and restoration of regularly payment to the allies. With this effected the way is open for constructive consideration of the situations in other states. The American people have never been and will not be remiss in participation in these further measures, but our people cannot successfully enter until those who have control of the reparations have settled the major issues upon so sound and economic a basis that we can look upon the future of Europe with confidence."

FIRE DOES \$50,000  
DAMAGE AT MUNCIE

MUNCIE, Ind., Dec. 11.—Fire thought to have originated from spontaneous combustion caused a loss estimated at \$50,000 in the Korby Lumber Co.'s yard here Sunday night. Adjoining residence properties were damaged. The loss is fully covered by insurance, company officials announced. Three motor trucks were destroyed.

The flames had gained much headway before being discovered and firemen were unable to bring them under their control until after nearly a two hours fight. The shed which burned was filled with high grade lumber. Bert Fleming, 25, of Huntington, W. Va., was injured while watching firemen fight the flames.

CHICAGO, Dec. 11.—If O'Connor is captured before next Thursday, his execution would take place as scheduled, according to William Scott Stewart, assistant state's attorney. If he is captured after that time, the court would be compelled to fix another date for hanging. Mr. Stewart said.

Chief of Police Fitzmorris in a statement tonight said:

"Conditions at the county jail are appalling. It may be true that O'Connor slugged a couple of guards but I say he was shoved out of the county jail. He was pushed out. They furnished him with everything he needed with the possible exception of a road map."

SUPPORTERS FEAR  
ENGLAND'S PRAISE  
WILL BEAT TREATY

Estimates of DeValera's  
Strength in Dail Eireann  
Becoming Greater.

LONDON, Dec. 11.—In the absence of any new move and awaiting important developments of the coming week, the press and public are engaged in estimating the chances in the pending struggle for and against the new Irish treaty. Those best informed see no reason to modify their view that the treaty will be accepted by the Irish people, but are inclined to take a less sanguine view of its chances in Wednesday's Dail Eireann meeting. It is believed that Eamon De Valera and his supporters will be able to put up a stiff fight. He will have powerful aid from Charles Burgess, the minister of defense, who is eloquent and persuasive, while the opposition of some writers, will find himself greatly handicapped by all the complimentary things the English press has been saying about him since the settlement was reached.

**May Have Plebiscite.**

## WAS TO DIE THURSDAY

Police, Armed With Shotguns  
and Ordered to Shoot on  
Sight, Scour City.

By Associated Press.  
CHICAGO, Dec. 11.—Tommy O'Connor, two-gun man sentenced to be hanged next Thursday for the murder of two officers of the Illinois state police, fighting his way past half a dozen guards, most of whom were beaten into unconsciousness by the desperado in their dash for liberty.

Starting in the fourth floor "bull pen" where the prisoners were exercising at 11 o'clock Sunday morning, the break for freedom led down five floors into the basement, into the jail yard and over a 12-foot wall to a street where an automobile was confiscated. The driver, a pistol pointed into his face, was told to "drive like hell."

**Heads for South Side.**  
A few minutes later the machine crashed into a telephone pole, but the bandits continued their flight. O'Connor commanded another car and when he saw the members who has been characterized by the police as Chicago's most desperate gunman, was headed toward the south side underworld armed for battle. Two other prisoners who attempted to escape with the trio were captured in the handcuffs.

**Escape Carefully Planned.**  
The escape, carried out in broad daylight, was the most sensational in this part of the country in many years and apparently was carefully planned in advance. It was successful despite the presence of half a dozen O'Connor's pistol and risked the lives in trying to obstruct his dash for liberty.

The two men who escaped with O'Connor were Edward Darrow, charged with a \$100,000 robbery, and James Laporie, alleged to have been implicated in a \$30,000 robbery. O'Connor had been in trouble with the police on many occasions, but his apparent immunity from conviction earned him the title of "Lucky Tom."

Last spring half a dozen detectives went to O'Connor's house to question him about a crime. While there Policeman Patrick O'Neill was shot and killed and O'Connor, later convicted of the murder, escaped despite the presence of half a dozen officers, most of whom were wounded for their apparent negligence.

After several weeks, Tommy's proverbial luck failed, for he was captured in St. Paul, Minn., brought back here, convicted and sentenced to hang.

Seventy-five prisoners were exercising in the "bull pen" when O'Connor and his pals made their break. (Continued on page two)
